

I wouldn,t go back to commercial radio if someone paid me to do so. I get more variety in programming from xm satellite radio. It is nice to be able to listen to your favorite station while driving from Georga to Texas, Florida, North Carolina or anywhere else without having to fumble with the radio knob to try and find the kind of music or programming that I like. I can listen to classic radio programs, 50's & 60"s rock. books on tape or news programs from state to state. You cannot get that from commercial radio. I have xm satellite radio in all my vehicles and in my home. I gladley pay for this service and it's not up to the National Association of Broadcasters to tell me what I can and cannot listen to especially since I am paying for it. I respectfully urge you to reject the NAB's petition 04-160 and to support xm's ability to provide the kind of programming that I demand and deserve
